NEW PRODUCT ANNOUNCEMENT

MERIT® GOES COMMERCIAL

INTRODUCING THE ALL-NEW 3-PHASE MERIT HEAT PUMP

LENNOX® NOW OFFERS 3-PHASE MERIT HEAT PUMPS FROM 3– 5 TONS.

Merit 3-phase heat pumps are designed to meet Lennox' quality standards and built to provide years of reliable heating and cooling. The louvered, heavy-gauge steel panels and cabinets featuring PermaGuard® provide superior corrosion resistance. The Merit (ML14XP1) includes the exclusive Lennox Quantum™ Coil Technology making it easier to service while enhancing performance ratings.

INTRODUCING LENNOX® QUANTUM™ COIL TECHNOLOGY

OUR QUANTUM COIL TECHNOLOGY—FEATURING A PROPRIETARY ALUMINUM ALLOY EXCLUSIVE TO LENNOX—IS HERE TO DELIVER SUPERIOR PERFORMANCE AND PEACE OF MIND.

We've engineered the Lennox Quantum coils to reduce the effects of corrosion in tough environments, helping to maintain your unit's cooling capacity over a longer period of time.

Specialized aluminum alloy coils reduce the chance of corrosion due to moisture, oxidation, or salt and are significantly lighter than traditional copper coils. Some Quantum coil units can weigh up to 50 pounds less than the copper versions they replace.

Key advantages:

- Energy savings through efficient heat removal
- Easier installation/maintenance with no harsh chemicals
- Reliable operation despite harsh environments
